

1. Draw a circle by four different color of arc using applet in Java.	A. Write a program to find out $a+b$, $a-b$, $a*b$, and a/b using swing.
2. Write a java program that uses the draw Polygon() method of Graphics class to draw a triangle with endpoints (25,30), (75,80) and (50,50).	B. Write a program to find out Factorial of a number using swing.
3. Draw an Olympic symbol in java Applet. 	C. Write a java program to create two tabs like in first tab you will take user input of two numbers and division pf those two numbers then a next button will come which will take us to 2nd tab where again you will take user input of two numbers and perform multiplication of those two numbers.
4. Draw Smiling Face in java Applet. 	D. Write a program that helps in creating 3 push buttons the names of 3 colour (Yellow, Blue, Pink). When a button is clicked, that particular color is set as background color in the frame.
5. Draw the bellow figure in java Applet. 	E. Write a program to find out the compound interest using swing.
6. Draw the below diagram in java Applet. 	F. Write a program convert Celsius to Fahrenheit and vice-vers using swing.
7. Draw the below diagram in java Applet. 	G. Write a java program to find out the maximum of three number using swing.
8. Draw the below diagram in java Applet. 	H. Write a java program check given year is leap year or not using swing.
9. Draw the below diagram in java Applet. 	I. Write a java program to find out the GCD of three number using swing.

10. Draw the below diagram in java Applet.	J. Write a program swap two number without using third variable using swing.
	
11. Draw the below diagram in java Applet.	K. Write a java program to find out the minimum of three number using swing.
	
12. Draw the below diagram in java Applet.	L. Write a java program to find out the monthly payment using swing. Input P,Y,R.
	
13. Draw the below diagram in java Applet.	M. Write a java program to find out the average marks of 5 subject and display grad according to KIIT grad scale, using swing.
	
14. Write a java program that uses the draw Polygon() method of Graphics class to draw a hexagon.	N. Write a java Program to calculate the sum digits of a number using swing.
15. Draw the below diagram in java Applet.	O. Write a java Program to find Second largest number among three input using swing.
	
16. Draw the below diagram in java Applet.	P. Write a java Program to check the number is strong number or not using swing.
	
17. Draw the below diagram in java Applet.	Q. Write a java program to find out the LCM of three number using swing.
	
18. Draw the below diagram in java Applet.	R. Write a java Program to find Second minimum number among three input using swing.
	
19. Draw the below diagram in java Applet.	S. Write a program that helps in creating 3 push buttons the names of 3 colour (Yellow, Blue, Pink). When a button is clicked, that particular color is set as background color in the frame.
	
20. Draw the below diagram in java Applet.	T. Write a java program to create

two tabs like in first tab you will take user input of two numbers and division pf those two numbers then a next button will come which will take us to 2nd tab where again you will take user input of two numbers and perform multiplication of those two numbers.
